## AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

## Listing of Claims:

- 1. (Original) A skin care composition comprising:
  - a) an N-acyl amino acid compound selected from the group consisting of N-acyl amino acid, its isomers, its salts, and derivatives thereof;
  - a safe and effective amount of a skin care active selected from the group consisting of sugar amine, vitamin B<sub>3</sub>, retinoids, peptides, phytosterol, dialkanoyl hydroxyproline, hexamidine, salicylic acid and their derivatives, and combinations thereof; and
  - c) a dermatologically acceptable carrier for the N-acyl amino acid and the skin care active.
- (Original) The skin care composition of Claim 1 wherein said composition comprises from about 0.0001% to about 25%, by weight, of the N-acyl amino acid compound.
- (Original) The skin care composition of Claim 1 wherein said N-acyl amino acid
  is selected from the group consisting of N-acyl phenylalanine, N-acyl tyrosine,
  their isomers, their salts, and derivatives thereof.
- 4. (Original) The skin care composition of Claim 3 where said N-acyl phenylalanine is N-undecylenoyl-L-phenylalanine.
- 5. (Original) The skin care composition of Claim 1 wherein said skin care active is vitamin B<sub>3</sub>.

- (Original) The skin care composition of Claim 5 wherein said vitamin B<sub>3</sub> skin care active is niacinamide.
- 7. (Original) The skin care composition of Claim 1 wherein said N-acyl amino acid compound is N-undecylenoyl-L-phenylalanine present in an amount of from about 0.02-2.5%, by weight of the composition, and said skin care active is niacinamide present in an amount of from about 2% to about 5%, by weight of the composition.
- 8. (Original) The skin care composition of Claim 1 further comprising from about 0.001% to about 10%, by weight, of an additional component selected from the group consisting of desquamatory actives, anti-acne actives, wrinkle repair actives, anti-oxidants, radical scavengers, chelators, flavonoids, anti-inflammatory agents, anti-cellulite agents, tanning actives, skin lightening agents, antimicrobial actives, antifungal actives, sunscreen actives, conditioning agents, thickening agents, water soluble vitamins, particulate material, topical anesthetics, and combinations thereof.
- (Original) The skin care composition of Claim 1 wherein said composition is an emulsion.
- 10. (Original) The skin care composition of Claim 9 wherein the emulsion is selected from the group consisting of water-in-oil emulsions, oil-in-water emulsions, and combinations thereof.
- 11. (Withdrawn) A method of regulating the condition of mammalian keratinous tissue, said method comprising the step of topically applying to the skin of a mammal in need of such treatment the composition of Claim 1.

- 12. (Withdrawn) A method of preventing, retarding, and/or treating uneven skin tone of a mammal, said method comprising the step of topically applying to the skin of a mammal needing such treatment the composition of Claim 1.
- 13. (Withdrawn) A method of acting as a lightening or pigmentation reduction cosmetic agent said method comprising the step of topically applying to the skin of a mammal needing such treatment the composition of Claim 1.
- (Withdrawn) A method of thickening the skin and/or preventing, retarding, and/or treating skin atrophy of a mammal, said method comprising the step of topically applying to the skin of a mammal needing such treatment the composition of Claim 1.
- 15. (Withdrawn) A method of preventing, retarding, and/or treating the appearance of spider vessels and/or red blotchiness on mammalian skin, said method comprising the step of topically applying to the skin of a mammal needing such treatment the composition of Claim 1.
- (Withdrawn) A method of preventing, retarding, and/or treating the appearance of dark, under-eye circles and/or puffy eyes, said method comprising the step of topically applying to the skin of a mammal in need of such treatment the composition of Claim 1.
- 17. (Withdrawn) A method of preventing, retarding, and/or treating sallowness of mammalian skin, said method comprising the step of topically applying to the skin of a mammal in need of such treatment the composition of Claim 1.
- 18. (Withdrawn) A method of preventing and/or retarding tanning of mammalian skin, said method comprising the step of topically applying to the skin of a mammal in need of such treatment the composition of Claim 1.

- 19. (Withdrawn) A method of desquamating, exfoliating, and/or increasing turnover in mammalian skin, said method comprising the step of topically applying to the skin of a mammal in need of such treatment the composition of Claim 1.
- 20. (Withdrawn) A method of regulating and/or reducing the size of pores in mammalian skin, said method comprising the step of topically applying to the skin of a mammal in need of such treatment the composition of Claim 1.
- 21. (Withdrawn) A method of regulating the oily and/or shiny appearance of mammalian skin, said method comprising the step of topically applying to the skin of a mammal in need of such treatment the composition of Claim 1.
- 22. (Withdrawn) A method of preventing, retarding, and/or treating hyperpigmentation, said method comprising the step of topically applying to the skin of a mammal in need of such treatment the composition of Claim 1.
- 23. (Withdrawn) A method of preventing, retarding, and/or treating the appearance of fine lines and/or wrinkles in mammalian skin, said method comprising the step of topically applying to the skin of a mammal in need of such treatment the composition of Claim 1.
- 24. (Withdrawn) A method of preventing, retarding, and/or treating skin dryness in mammalian skin, said method comprising the step of topically applying to the skin of a mammal in need of such treatment, the composition of Claim 1.
